

sent to 120 club officers

Nebraska Public Library Commission

Lincoln Feb. 8, 1902.

To the members of the Nebraska Federation of Women's Clubs:-

This Commission takes this opportunity to express its appreciation of the gift of the library of your Federation. In return, we desire to be as helpful as our resources permit. Your attention is called to the fact that we are ready to make special loans of books to study clubs, and we invite you to avail yourselves of such assistance as we are able to give you in the way of books. Books loaned are sent and returned at the expense of the borrower. All clubs having now in use books that belong to the Federation library will kindly return them, when they are through with them, prepaid, to this Commission.

If your club has not had a library day this year, we suggest the subject of library extension as a profitable one for discussion. The accompanying circular and folder will show what the Commission is trying to accomplish. We need the active interest and support of every club member in the state in the work of library extension in Nebraska.

Respectfully,

Edna D. Bullock, Secretary.
